

Digital Literacy 101

What is Digital Literacy ?

Digital literacy is the ability to find, evaluate, create, and communicate information using digital tools — safely, responsibly, and effectively. It is not just about using a phone or laptop — it is about using them wisely.

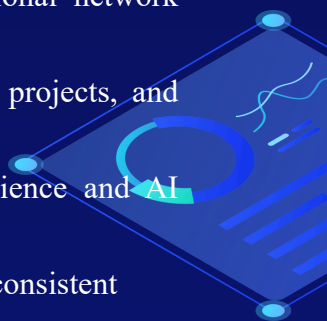

Useful Digital Tools

- Canva — design presentations and infographics
- Google Workspace — Docs, Sheets, Forms for collaboration
- GitHub — store and share your code
- Kaggle — learn data science and AI with real datasets
- HackerRank — practise coding and problem solving
- Notion — organise notes, assignments, and projects

Professional Online Presence

- LinkedIn — build your professional network and apply for internships
- GitHub — showcase your code, projects, and contributions
- Kaggle — display your data science and AI skills
- Keep profiles clean, updated, and consistent
- Use your college email for sign-ups
- Avoid posting anything you wouldn't want an employer to see

Stay Safe Online

- Use strong, unique passwords for every account
- Enable Two-Factor Authentication (2FA)
- Never click on suspicious links or pop-ups
- Don't share personal info on unverified websites
